Energy use at school

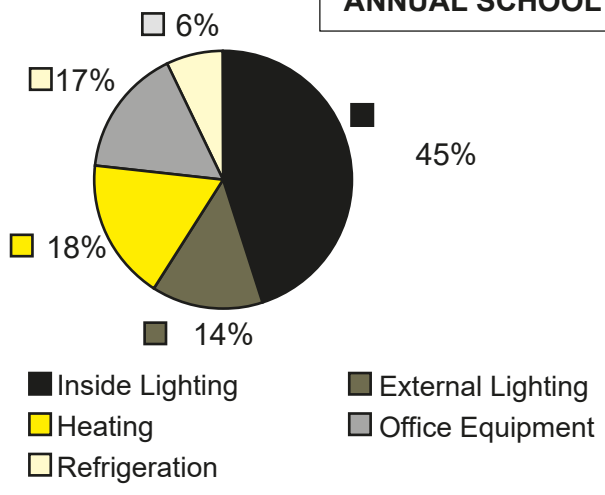

Look at this information. **Read** the texts carefully and **answer** the questions.

Hi! My name is School Light Bulb.
I'm in all schools.

We use energy at school every day. Saving energy is very important. Think about the quantity of energy we consume! Your help is like a drop in the ocean, but it will make a big difference if all children at schools work together.

ANNUAL SCHOOL ELECTRICITY CONSUMPTION

SHOOL ENERGY BILL	PRICE
INSIDE LIGHTING	€ 638.64
EXTERNAL LIGHTING	€ 158.44
HEATING	€ 203.34
OFFICE EQUIPMENT	€ 229.87
REFRIGERATION	€ 75.16
TOTAL	€ 1305.45

Here are some tips that your school can follow to reduce energy consumption:

<p>Use natural light when possible.</p>	<p>Turn off the lights when you leave the room.</p>	<p>Turn off electronic devices when you don't use them.</p>
<p>Keep windows closed when the heating is on.</p>	<p>Use energy-efficient lights.</p>	<p>Wash your hands with cold water.</p>

What is the main idea of the text?

10.

- A. Saving energy is risky.
- B. We don't have to save energy
- C. We don't have to turn off the lights at school
- D. Be aware of the importance of saving energy

D4PI2301CE01

D4PI2301CE02

11.

Choose true (T) or false (F). Mark with an X.

Statements	T	F
1. Light bulbs are only in some schools		
2. Saving energy has little importance		
3. Leave windows open when the heating is on		
4. The school spent €229.87 on office equipment		

D4PI2301CE03

12.

What is the right context of the text?

- A. A museum and the number of visitors in a day
- B. A home and its energy consumption in a week
- C. A school and its energy consumption in one year
- D. A library and its water consumption in two months

D4PI2301CE04

13.

What is the meaning of "reducing energy consumption"?

- A. Using less energy
- B. Using more energy
- C. Using a lot of energy
- D. Using the same energy

D4PI2301CE05

14.

Select the right order for the information in the text:

- A. Electricity consumption – information – introduction – tips
- B. Introduction – electricity consumption – information – tips
- C. Tips – introduction – electricity consumption – information
- D. Introduction – tips – electricity consumption – information

D4PI2301CE06

15.

A light bulb is...

- A. a device we use to convert electricity into light
- B. a device connected to a telephone for listening
- C. a device for interacting with a digital computer
- D. a device we use to communicate with our friends

D4PI2301CE07

16.

When we save energy...

- A. we care about the environment
- B. we aren't doing the planet any good
- C. we don't care about the environment
- D. it doesn't have an impact on the environment

D4PI2301CE08

17.

What are **energy-efficient** lights?

- A. Lights which are eco-friendly
- B. Lights which are very expensive
- C. Lights which are contaminating
- D. Lights which are good for the environment

D4PI2301CE09

18.

How does the title reflect the main idea of the text?

- A. It reflects the use of heating
- B. It reflects the use of electronic devices
- C. It reflects the school electricity consumption
- D. It reflects the importance of keeping the windows open

Introducing yourself by email

Look at this email from Aidan:

Hi! How are you?

My name's Aidan and I'm 10 years old. I'm in 4th grade and I go to school in Galway. This is a city in the West of Ireland, approximately 200 km. from Dublin —the capital city.

I study Irish at school, but I usually speak English with my friends and family. Both Irish and English are official languages in the Republic of Ireland.

I like swimming, playing tennis and hurling, a typical sport in Ireland. I also like playing computer games with my brother Seán. I've got a pet rabbit, Juno.

Do you want to be my friend? Please write soon.

Best wishes,

Aidan

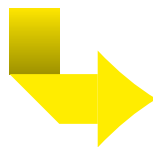

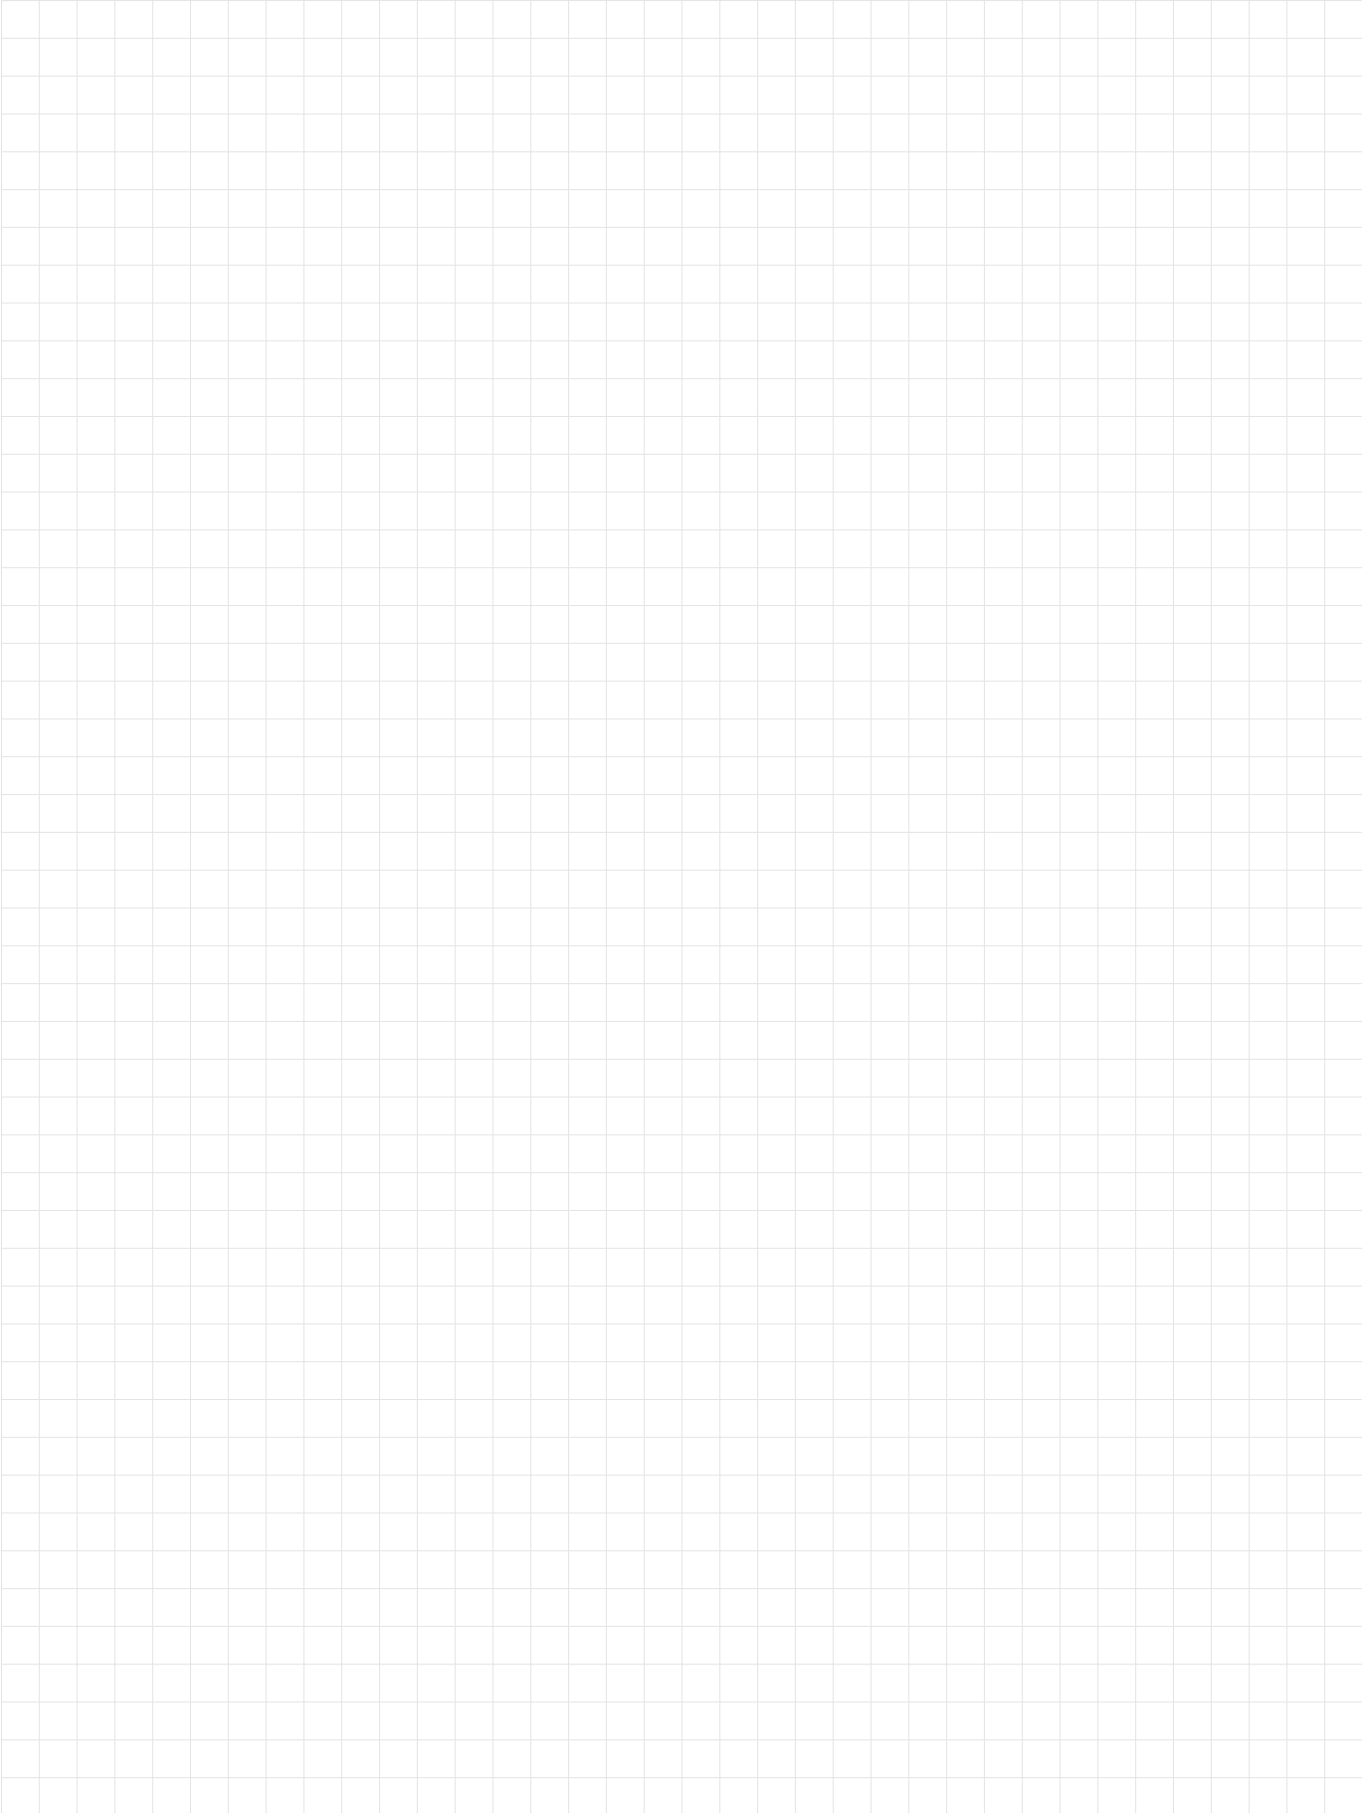

Write a similar email to Aidan to introduce yourself. Think about these questions:

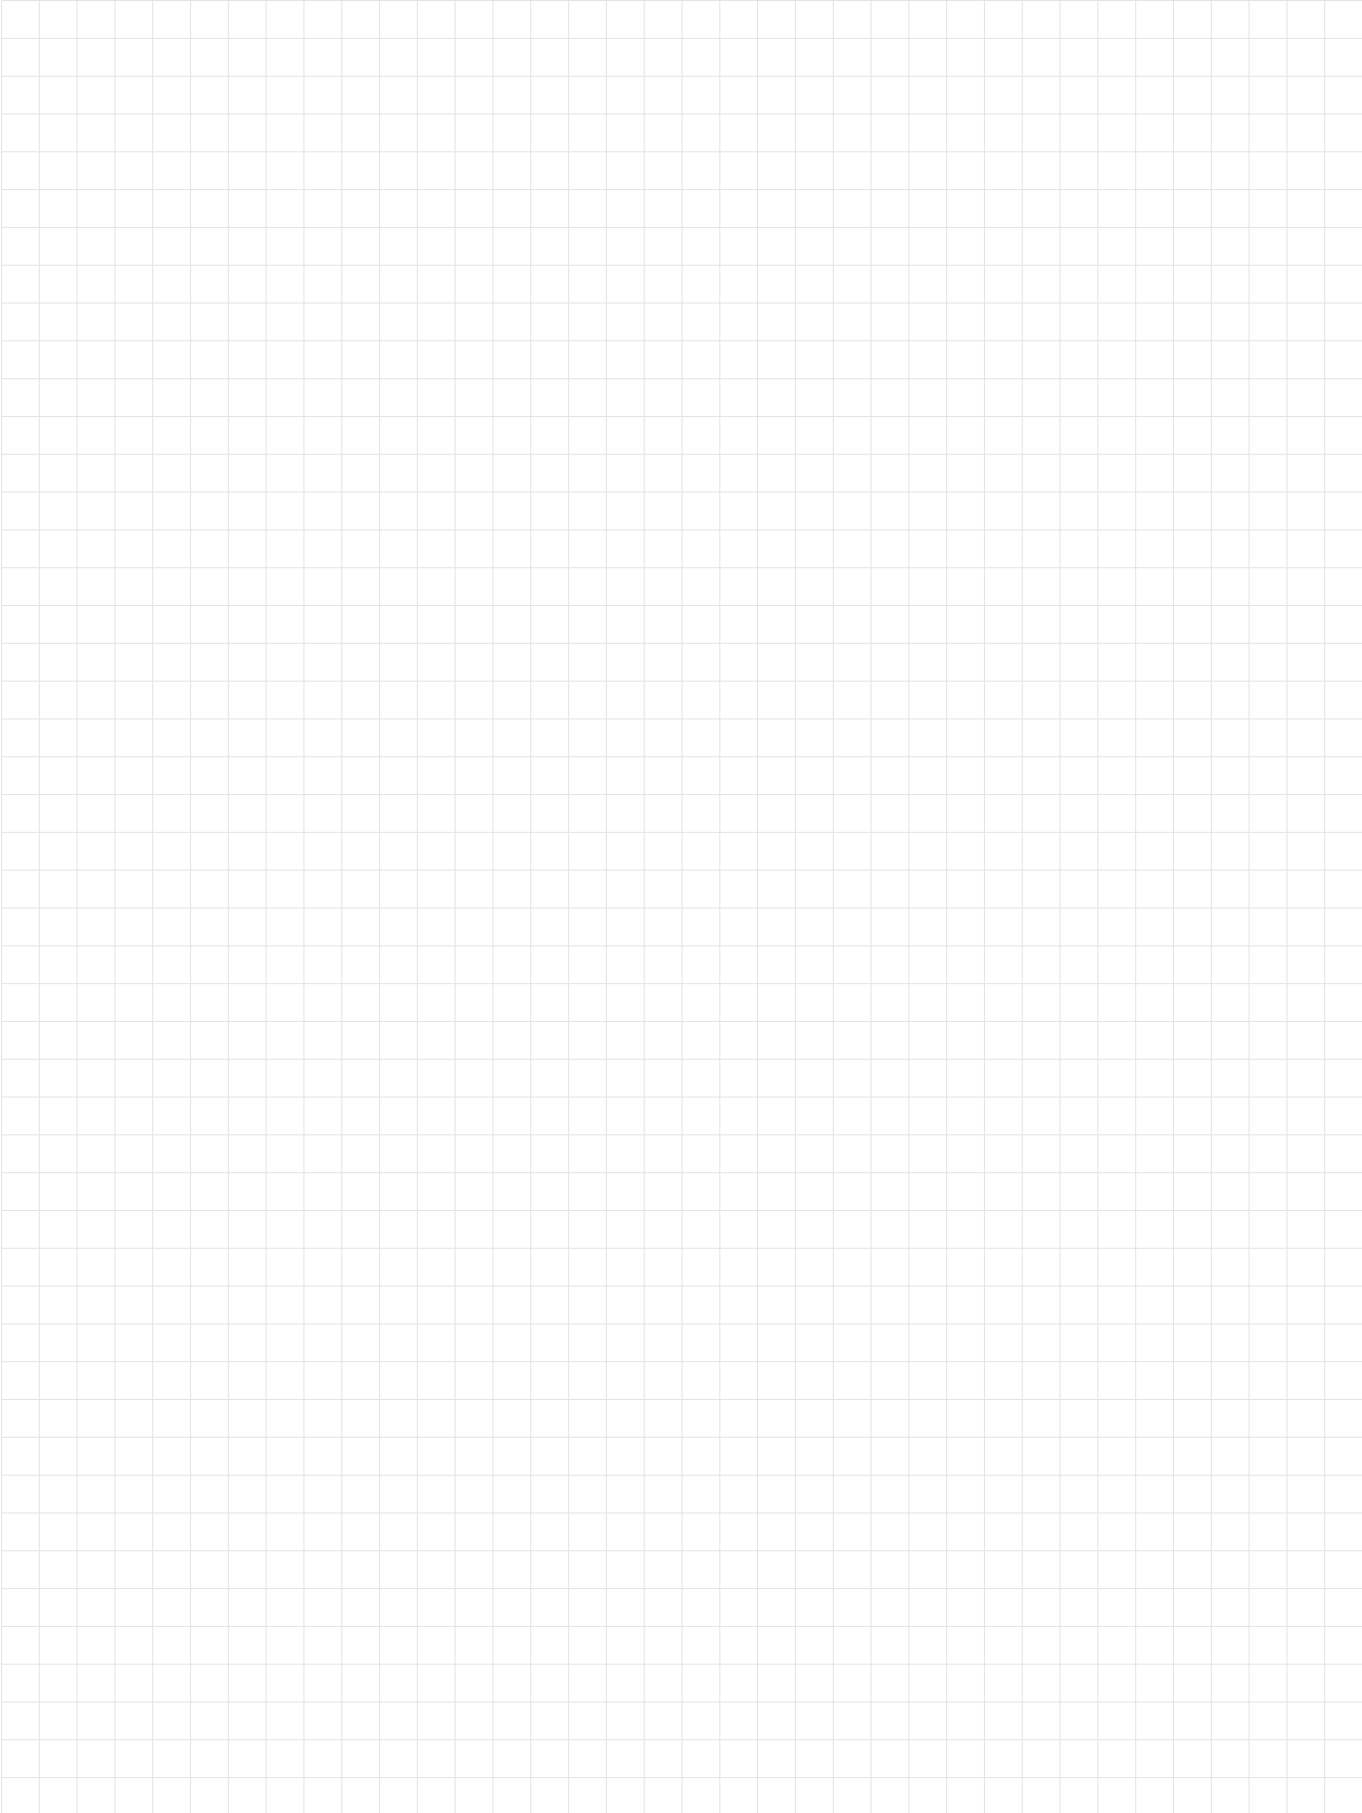

What's your name? How old are you? Where do you live? What languages do you speak and study? What are your hobbies? Do you have a pet? Do you have any brothers and sisters?

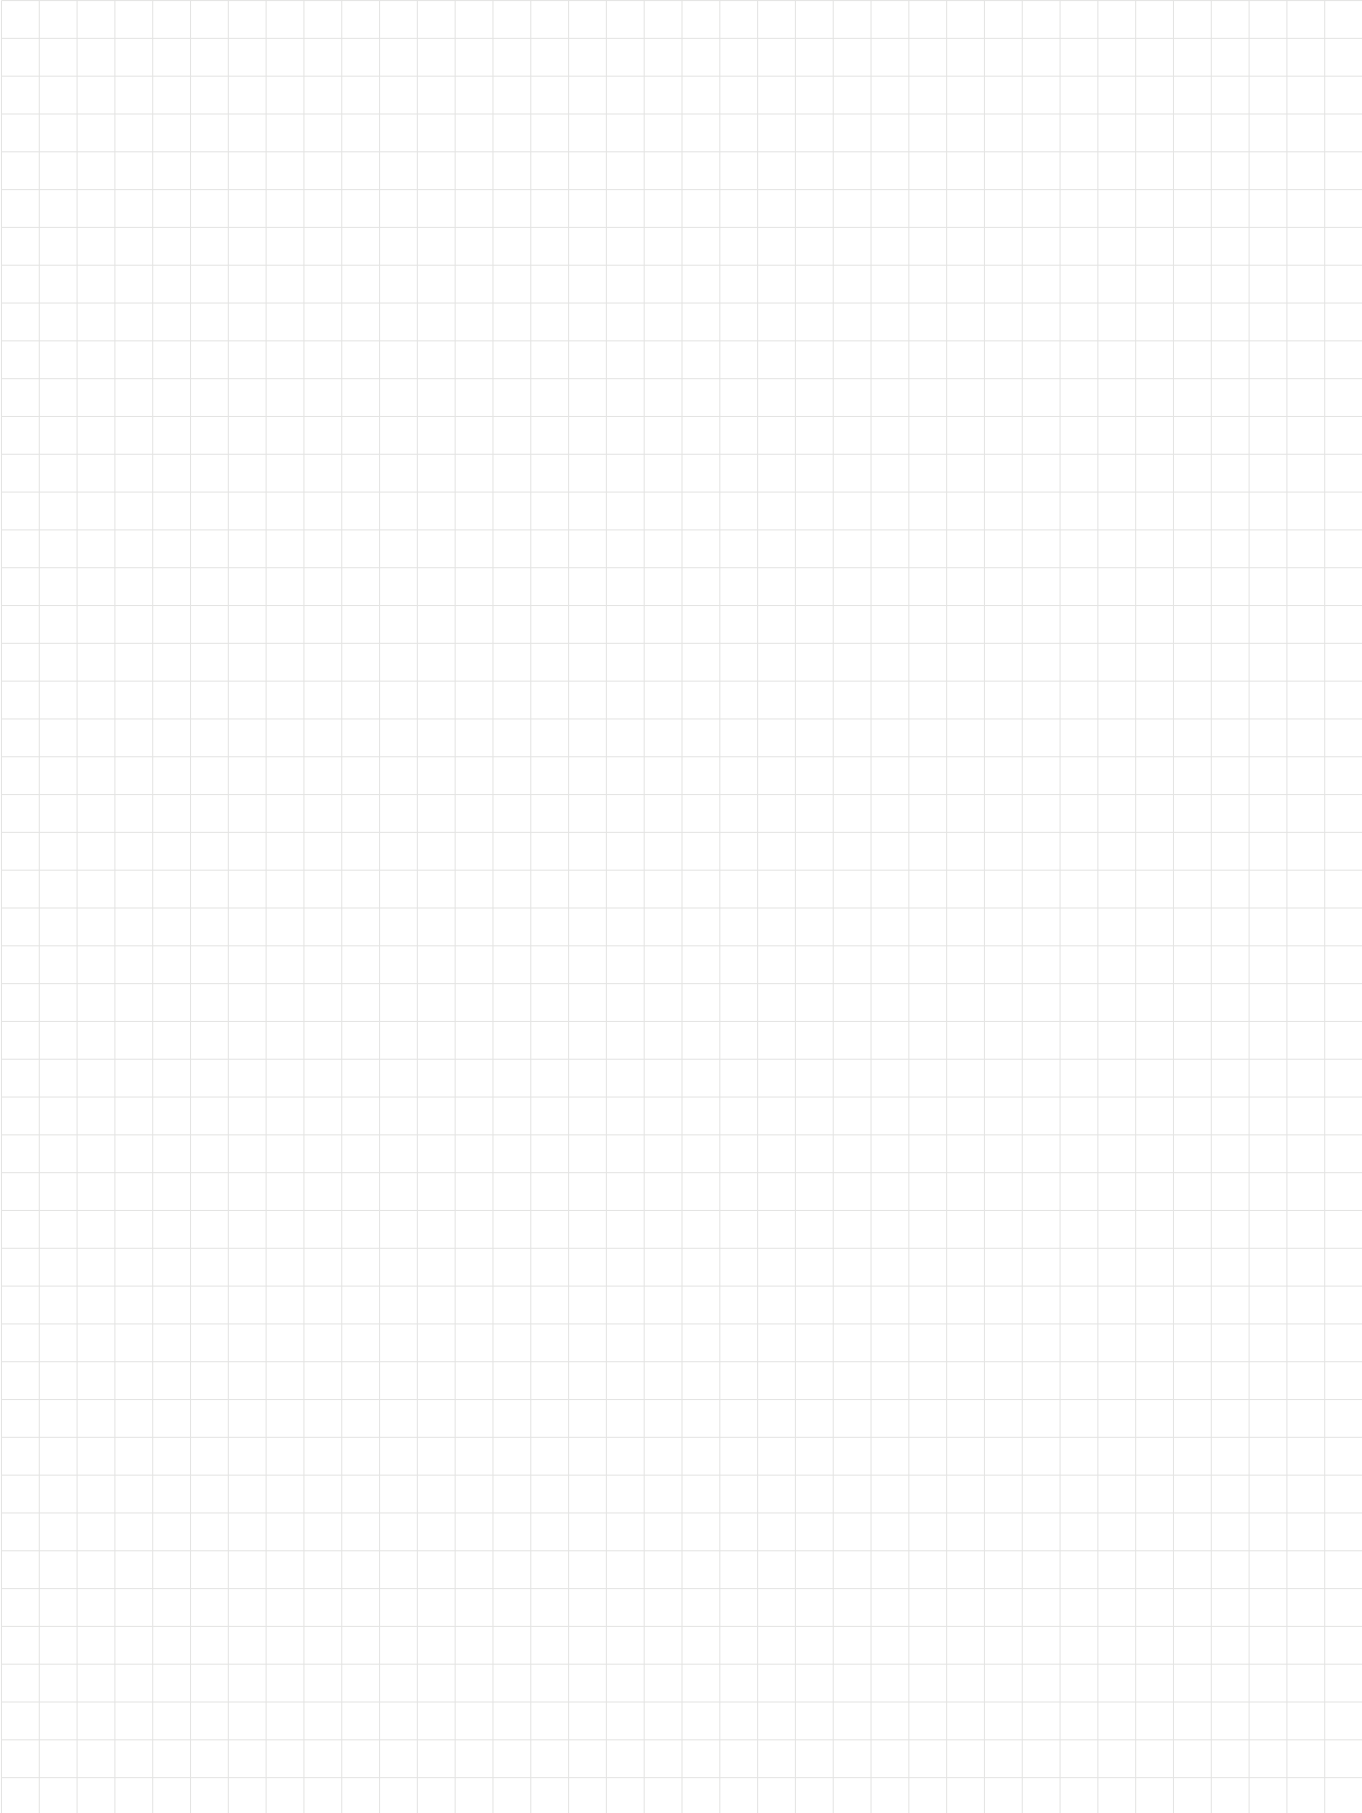

Write between 100 and 120 words.
